

WHAT WE SAY

Solution Ozone started in 2018 as “Gerozone Lda.”, with the goal of revolutionizing product research with the Domestic Kit. However, when companies, industries and people started to know about the ozone benefits, they contacted us with their requests and the needs. To match their requests, our company has expanded its business into various fields including Ozone

Generators production from domestic use to industrial equipment, research of new solutions with Ozone, from clinical to industrial applications.

Regarding the spirit of creativity, I think that it links us to the development, proposal of more differentiated and unique products or solutions and that each employee in the companies must return to their starting point to reconsider creativity as the driving force behind business expansion. It is a big advantage of our company that we continue to investigate and deliver various products and solutions to a wide variety of industries, while combining our unique core technologies at a high level of competence.

At the moment, when the changing speed of the world is more and more accelerated, I think that it is more important than anything else to anticipate market changes, to look one step ahead into the future, and to propose products and solutions that exceed the customers’ expectations. “Innovation” as the keyword! We are aiming to meet the expectations of as many OZONE fans as possible and to develop further by striving positively to exploit new demands and develop new products.

CEO,

Bruno Felício

ABOUT OZONE

Ozone is 100% natural

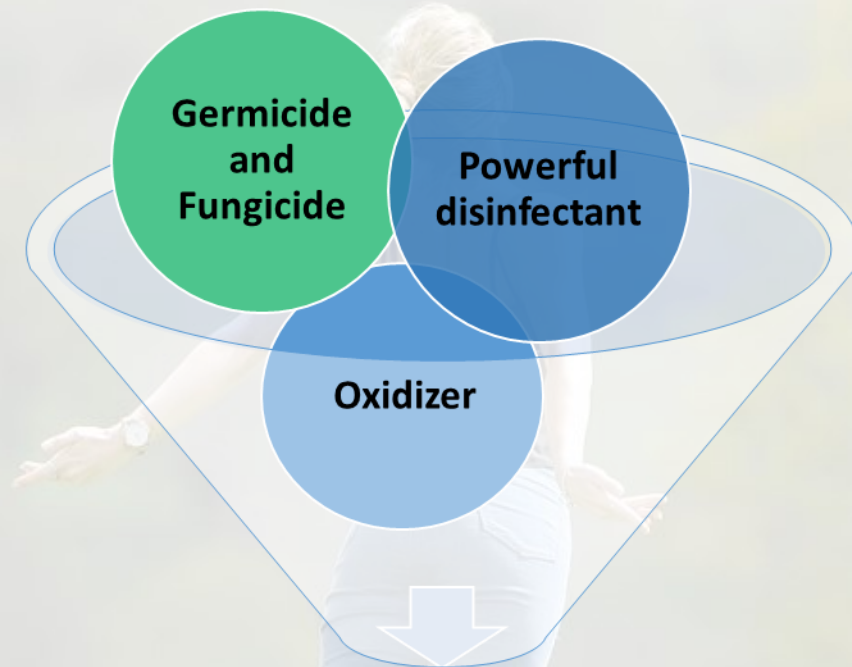

Ozone is a natural gas, made up three atoms of oxygen (O_3 – trioxygen), that is found in nature with a higher percentage on the ozone layer, but also, can be produced with Corona discharge or UV for commercial and industrial applications.

The use of ozone can be found Clinically, in medical and aesthetic treatments, or simply to disinfect and sterilize instruments and rooms.

Domestically, to treat the drinking water or the water to wash fruits, vegetables and other ingredients, to purify the air, to treat daily products such as body creams, gels, shampoos and others, and for the treatment of swimming pools' water.

Industrial level, where, in addition to the above-mentioned uses, ozone has many more applications.

Nowadays, the use of Ozone is growing. There are more and more applications being developed where it is one of the most important factors of the solution.

- ✓ Water complete treatment
 - ✓ Cellular Regenerator
- ✓ Eliminates bacteria, fungi and viruses
 - ✓ Power Booster
 - ✓ Oxidizes cancer cells
- ✓ Strengthens the immune system
- ✓ Reinforces the circulatory system
- ✓ Improves the respiratory system
 - ✓ Remove odors
- ✓ and much more benefits ...

Gerozone is a *Start Up* dedicated to R&D and production of Ozone Equipments'.

Solution Ozone's main goal is decreasing the use of chemicals to improve the Human and Planet Health/Well Being.

COMPANY STRATEGY

Purpose:

To be a leader of Ozone Generator Solutions on the market by providing enhanced services, innovative solutions, trust relationships and profitability.

Vision:

Provide quality services that exceed the expectations of our esteemed clients, always keeping in mind the research of new solutions to offer a service and products of excellence.

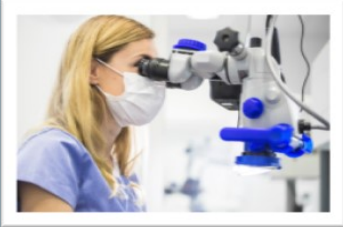

Mission:

To build long term relationships with our customers and clients by providing an exceptional customer service by pursuing business through innovation and advanced technology.

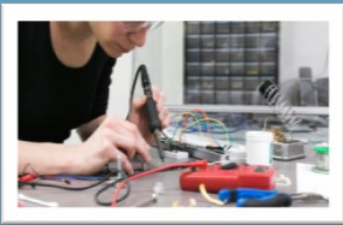

What Do We Do

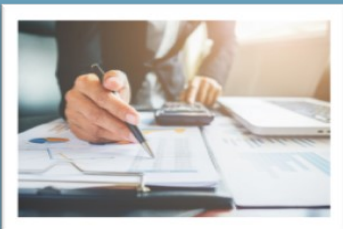

- ✓ Research and test new ozone solutions and applications.

- ✓ Develop and build Ozone Generators.

- ✓ Repair and maintenance of ozone generators.

- ✓ Business Consulting.

Integrated Air Pump

Our IAP Ozone Generators contain a long-life and silent air pump incorporated with the recommended flow for these units. With this capability, these units are ready to go (just plug and use).

Dry Air

These units are ready to be supplied with air from an external compressor with dry air, to ensure that the air inside the units is fully dry.

Oxygen

These units are fully compatible with the medical or industrial oxygen supply at 99.9%.

Custom Made

According with the needs proposed, we design and develop systems to solve the requested project.

Ozone Solutions

We develop solutions with ozone:

- ❖ Dental Kit
- ❖ Dental Sterilization
- ❖ Swimming pool treatments
- ❖ Water machine Kit
- ❖ Hydroponics Treatment
- ❖ Domestic Kit
- ❖ TCA
- ❖ Weeds removal

Ozonated Ice

Phytophthora

Aqua Vet

Aqua Large Vet

Micro Plastics

Public Toilets

OUR PRODUCTS BENEFITS

✓ **High quality standards**

Our goal is to satisfy the customers' requirements, so we only get satisfied with high quality ensuring our customers the guarantee of unique & reliable products.

✓ **Long life cycle**

In addition to the high-quality standards, we use slow wear materials which allow our customers to purchase durable and low maintenance products.

✓ **Experienced staff**

From development, production and even customer service, we have an experienced team to create efficient and high-quality products and solutions.

✓ **Certified products**

Our products are developed according to the rules and regulations of competent entities in the defense and safety of the consumer, as CE, FCC, and others.
